

Quick Start Guide

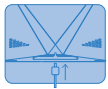

21.5" Digital Photo Frame

PF2105WV

Quick Start Guide

STEP ONE Plug in the frame.

Unbox your frame and plug in it.

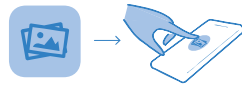

STEP TWO Connect your frame to WiFi.

Make sure your frames device is connected to WiFi successfully.

STEP THREE Get the free VPHOTO app.

Search "VPHOTO" in the Apple App Store or Google Play. Download the app and create an account.

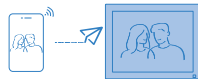

STEP FOUR Connect your frame to the app.

Scan or enter the connection code of the frame to connect your frame to the app.

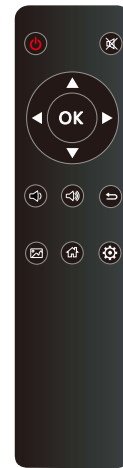

STEP FIVE Add some photos and videos to your frame.

Choose some photos and videos from your mobile phone; share these happy moments with your frame via the app instantly.

STEP SIX Invite family and friends members.

Qpix is more fun with families and friends! They'll need to download VPHOTO and get the connection code of the frame from you to start sharing.

Pairing the remote with digital photo frame

Remote has been paired at factory.

Here is how to reset the pairing if necessary.

1. Insert AAA battery.
2. Point the remote to the digital frame.
3. Press  and  button together.
